Contents Volume 22, 1992

Vol. 22 Nos.1+2 **OCTOBER 1992**

Acknowledgements ix
Preface xi
Forward xv
List of Figures xix
List of Tables xxi

Part I
Defining the problems of irrigation planning in developing countries

Chapter 1: Issues in irrigation 1

Chapter 2: Case studies 15

Chapter 3: Project objectives – the economics of assured and equitable deliveries 51

Chapter 4: Linking the management structure to the canal network layout 65

Part II
Guidelines for planning and operating structured irrigation systems

Chapter 5: Cropping systems and water demands 81

Chapter 6: Preparing maps for network layout 105

Chapter 7: Interrelated hydraulic, economic and environmental elements 113

Chapter 8: Network design and layout 147

Chapter 9: Scheduling deliveries with adequate supplies and with limited supplies 183

Chapter 10: Monsoon season delivery scheduling in water-constrained projects 207

Chapter 11: Epilogue 221

Glossary 225

References 229

Vol. 22 No. 3 NOVEMBER 1992

Development of a portable rainfall simulator infiltrometer for infiltration, runoff and eriosion studies
A. Bhardwaj and R. Singh (Kharagpur, India) 235
Econometric consideration for reuse of drainage effluent in wheat production
A.K. Agnihotri (Kullu, India), P.S. Kumbhare, K.V.G.K. Rao and D.P. Sharma (Karnel, India) 249
Contrasting soil moisture environments beneath sugar cane drip irrigated during the day, and at night
C.L. Abbott (Wallingford, UK) and P.D. Ah Koon (Redúit, Mauritius) 271
Effect of water regime on yield of drip irrigated first ratoon cane intercropped with maize and groundnut
G.C. Soopramanien, R. Nayamuth (Redúit, Mauritius) and C.H. Batchelor (Wallingford, UK) 281
Dynamics of water use under annual legume pastures in a semi-arid mediterranean environment
I.A.M. Yunusa, R.H. Sedgley and D. Tennant (Nedlands and South Perth, Australia) 291
Hydrologic and salinity changes associated with tree plantations in a saline agricultural catchment in southwestern Australia
E.A.N. Greenwood, A. Milligan, E.F. Biddiscombe, A.L. Rogers, J.D. Beresford, G.D. Watson and K.D. Wright (Wembley and Canberra, Australia) 307

Vol. 22 No. 4 DECEMBER 1992

Water and energy conservation using irrigation scheduling with center-pivot irrigation systems
W.L. Kranz, D.E. Eisenhauer and M.T. Retka (Concord, NE, USA) 325
Water management strategy for increasing monsoon rice production in Bangladesh
M.D.J. Islam and M.K. Mondal (Gazipur, Bangladesh) 335
Effect of continuous irrigation with sodic and saline-sodic waters on soil properties and crop yields under cotton-wheat rotation in northwestern India
M.S. Bajwa, O.P. Choudhary and A.S. Josan (Ludhiana, India) 345
Water use of agricultural and native plants in a Western Australian wheatbelt catchment
P. Farrington, R.B. Salama, G.D. Watson and G.A. Bartle (Wembley, WA, Australia) 357
The effect of filter feeding fish on water quality in irrigation reservoirs
G. Sagi (Tel-Aviv, Israel) 369
Canopy temperature to assess daily evapotranspiration and management of high frequency drip irrigation systems
J. Ben-Asher (Sede Boquer Campus, Israel), C.J. Phene (Fresno, California, USA) and A. Kinarti (Tzemach, Israel) 379
Evaluating three cotton simulation models under different irrigation regimes
D.K. Asare, T.W. Sammis (Las Cruces, NM, USA), H. Assadian (El Paso, TX, USA) and J.L. Fowler (Las Cruces, NM, USA and) 391
